

**§ 648.295**

**50 CFR Ch. VI (10–1–14 Edition)**

any associated IFQ quota share shall be deemed to have been voluntarily relinquished pursuant to paragraph (b)(8) of this section.

(6) *Annual cost recovery report.* NMFS will publish annually a report on the status of the tilefish IFQ cost recovery program. The report will provide details of the costs incurred by NMFS for the management, enforcement, and data collection and analysis associated with the tilefish IFQ program during the prior cost recovery billing period, and other relevant information at the discretion of the Regional Administrator.

(i) *Periodic review of the IFQ program.* A formal review of the IFQ program must be conducted by the MAFMC within 5 years of the effective date of the final regulations. Thereafter, it shall be incorporated into every scheduled MAFMC review of the FMP (*i.e.*, future amendments or frameworks), but no less frequently than every 7 years.

[78 FR 49187, Aug. 13, 2013]

**§ 648.295 Tilefish incidental trip limits.**

(a) *Incidental trip limit for vessels not fishing under an IFQ allocation.* Any vessel of the United States fishing under a tilefish permit, as described at § 648.4(a)(12), is prohibited from possessing more than 500 lb (226.8 kg) of tilefish at any time, unless the vessel is fishing under a tilefish IFQ allocation permit, as specified at § 648.294(a).

Any tilefish landed by a vessel fishing under an IFQ allocation permit, on a given fishing trip, count as landings under the IFQ allocation permit.

(b) *In-season closure of the incidental fishery.* The Regional Administrator will monitor the harvest of the tilefish incidental TAL based on dealer reports and other available information, and shall determine the date when the incidental tilefish TAL has been landed. The Regional Administrator shall publish a notice in the FEDERAL REGISTER notifying vessel and dealer permit holders that, effective upon a specific date, the incidental tilefish fishery is closed for the remainder of the fishing year.

[76 FR 60647, Sept. 29, 2011]

**§ 648.296 Tilefish recreational possession limit.**

Any person fishing from a vessel that is not fishing under a tilefish vessel permit issued pursuant to § 648.4(a)(12), may land up to eight tilefish per trip. Anglers fishing onboard a charter/party vessel shall observe the recreational possession limit.

[76 FR 60647, Sept. 29, 2011]

**§ 648.297 Tilefish gear restricted areas.**

No vessel of the United States may fish with bottom-tending mobile gear within the areas bounded by the following coordinates:

[76 FR 60647, Sept. 29, 2011]

### § 648.298 [Reserved]

### § 648.299 Tilefish framework specifications.

(a) *Within-season management action.* The MAFMC may, at any time, initiate action to add or adjust management measures if it finds that action is necessary to meet or be consistent with the goals and objectives of the Tilefish FMP.

(1) *Specific management measures.* The following specific management measures may be adjusted at any time through the framework adjustment process:

- (i) Minimum fish size;
- (ii) Minimum hook size;
- (iii) Closed seasons;
- (iv) Closed areas;
- (v) Gear restrictions or prohibitions;
- (vi) Permitting restrictions;
- (vii) Gear limits;
- (viii) Trip limits;
- (ix) Adjustments within existing ABC control rule levels;
- (x) Adjustments to the existing MAFMC risk policy;
- (xi) Introduction of new AMs, including sub ACTs;
- (xii) Annual specification quota setting process;
- (xiii) Tilefish FMP Monitoring Committee composition and process;
- (xiv) Description and identification of EFH;
- (xv) Fishing gear management measures that impact EFH;
- (xvi) Habitat areas of particular concern;
- (xvii) Set-aside quotas for scientific research;
- (xviii) [Reserved]
- (xix) Recreational management measures, including the bag limit, minimum fish size limit, seasons, and gear restrictions or prohibitions; and
- (xx) IFQ program review components, including capacity reduction, safety at sea issues, transferability rules, ownership concentration caps, permit and re-

porting requirements, and fee and cost-recovery issues.

(xxi) Measures that require significant departures from previously contemplated measures or that are otherwise introducing new concepts may require a formal amendment of the FMP instead of a framework adjustment.

(2) *Adjustment process.* If the MAFMC determines that an adjustment to management measures is necessary to meet the goals and objectives of the FMP, it will recommend, develop, and analyze appropriate management actions over the span of at least two MAFMC meetings. The MAFMC will provide the public with advance notice of the availability of the recommendation, appropriate justifications and economic and biological analyses, and opportunity to comment on the proposed adjustments prior to and at the second MAFMC meeting on that framework action.

(3) *MAFMC recommendation.* After developing management actions and receiving public testimony, the MAFMC will make a recommendation to the Regional Administrator. The MAFMC's recommendation must include supporting rationale and, if management measures are recommended, an analysis of impacts and a recommendation to the Regional Administrator on whether to issue the management measures as a final rule. If the MAFMC recommends that the management measures should be issued as a final rule, it must consider at least the following factors and provide support and analysis for each factor considered:

- (i) Whether the availability of data on which the recommended management measures are based allows for adequate time to publish a proposed rule, and whether regulations have to be in place for an entire harvest/fishing season;
- (ii) Whether there has been adequate notice and opportunity for participation by the public and members of the affected industry in the development of
